

Leveraging SaaS™

Caber Resource Group (WBE) is a professional services firm that accelerates business growth and careers by intensely attracting, assessing, and placing specialized consulting resources in Workday® Initiatives. Our landscape of professional independent consultants provides our clients a new paradigm in leveraging Subject-Matter-Experts, so they can successfully transform and innovate their enterprise.

Strategic Value Proposition

We bridge the gap in contingent workforce management by providing delivery of in-demand highly specialized talent for mission-critical projects, that is not accessible from generalist staffing firms. And a breadth of implementation exposure and challenges not attainable from implementation partners.

Strategic Contingent Workforce Solutions

Many clients that have taken the plunge to transform their environments, need a **reliable/ scalable/ cost-effective** alternative to engage Workday® expertise outside of their implementation partner, application service provider, and/or Workday® directly. Caber Resource Group addresses that solution with a highly specialized contingent workforce model.

Consultant Qualification Methodology

Our qualification methodology has been developed and refined over 20 years of applying a specialized professional services business model to contingent workforce management. Developed to quickly and accurately deliver consulting resources, that precisely align with our client's demands. Our engagement process is routinely cited by our clients as a leading reason to engage Caber Resource Group.

Our Consultants

Our consultants are proven experts dedicated to delivering outcomes and results that provide lasting impact on our clients objectives and goals. **We manage a network of over 400 registered Workday® consultants, and a total Workday® database of over 900 consultants.**

Our Commitment

Our consultants are intensely conscious of three key responsibilities with each project engagement. First, they must successfully collaborate with the client and produce the required deliverables in the project engagement. Second, they must effectively ensure knowledge transfer occurs with the client. Third, they must develop clear and effective documentation to be leveraged by the client once the consultant departs.
